### Environmental Policy

Wealden Crematorium focuses on reducing its emission of 'greenhouse gases' to the environment through a more efficient use of energy. Some cremations, therefore, may not be carried out on the same day as the funeral service, but will in any event be carried out within 72 hours in line with the 'Guiding Principles' of the Institute of Cemetery & Crematorium Management (ICCM).

Likewise, all metals remaining after the cremation can be sensitively recycled to avoid the use of non-renewable resources in compliance with existing legislation and the auspices of the ICCM Recycling Scheme.

Please recycle any remaining metals (including coffin fixings)  (tick for yes)

Please return remaining metals to me  (tick for yes)
